Table of Contents: Volume 2 (1989)

Number 1

Risk, Ambiguity, and Insurance, Howard Kunreuther and Robin M. Hogarth 5
Preferences for Information on Probabilities vs. Prizes: The Role of Risk Taking Attitudes, Paul Schoemaker 37
An Experimental Test of Several Generalized Utility Theories, Colin F. Camerer 61
Decision Analysis Using Lottery-Dependent Utility, Joao L. Becker and Rakesh K. Sarin 105
Erratum: Ordinal Independence in Nonlinear Utility Theory, Jerry R. Green and Bruno Julien 119

Number 2

Retrospective on the Utility Theory of von Neumann and Morgenstern, Peter Fishburn 127
Probability and Juxtaposition Effects: An Experimental Investigation of the Common Ratio Effect, Chris Starmer and Robert Sugden 159
Deterministic Transformation of Random Variables and the Comparative Statics of Risk, Jack Meyer and Michael B. Ormiston 179
Adjusting Risky Situations: A Theoretical Framework and Empirical Test, Donald Wehrung, Kam-Hon Lee, David K. Tse, and Ilan B. Vertinsky 189

Number 3

The Impact of Risk Sharing on Efficient Decision, John W. Pratt and Richard Zeckhauser 219
Prospective Reference Theory: Toward an Explanation of the Paradoxes, W. Kip Viscusi 235
Experimental Markets for Insurance, Colin Camerer and Howard Kunreuther ... 265
Laboratory Experiments with a Finite-Horizon Job-Search Model, James C. Cox and Ronald L. Oaxaca 301

Number 4

The Effect of Airline Pilot Characteristics on Perception of Job Safety Risks, Leon N. Moses and Ian Savage 335
Risk Aversion and the Relationship between Nash's Solution and Subgame Perfect Equilibrium of Sequential Bargaining, Alvin E. Roth 353
Adaptive Learning, Adaptive Utility, and Rational Behavior in a Repeated Prisoner's Dilemma, Michael J. Moore and Marion Chapman Moore 367
Welfare Analysis under Uncertainty, John M. Marshall 385
Choice of Purchasing Arrangements in Insurance Markets, Kevin D. Cotter and Gail A. Jensen 405
More on Insurance as a Giffen Good, Eric Briys, Georges Dionne, and Louis Eeckhoudt 415
